The Shopping Addiction 2nd Edition: A Cure for Compulsive Shopping and Spending to Free Yourself from Addiction! + ADHD Symptom and Strategies 2nd Edition Shopping Addiction Shopping is a raging phenomenon among developed countries and has been studied over and over. Sociologists say it s a female drive , in an attempt to explain the differences in shopping behavior between men and women. It was said that the same obsession of men over sports can be linked to the way women go crazy on Black Friday sales or on mall openings. In the evolution of man, the male species are known to be hunters , while women have always been the gatherers or the ones who are in charge of finding things for their offspring. It is quite a reductionist perspective and is still widely debated, but one thing s for sure, shopping will keep women enchanted for years to come. However, this is limited to a targeted section of the market. Women, on the other hand, will shop whenever, wherever and whatever! This is because men consider shopping as merely a purchase of specific merchandise while for women, it s a whole different world altogether. But when does shopping stop being a charm and starts haunting you like a curse? Where do you draw the line between recreation and obsession? Do you think you re a shopaholic? Let s go find out. Topics discovered.
