Cochrane Metering Heater does more, however, than merely give you a gage or record of the operation of the plant. It helps improve the efficiency of the plant, by utilizing exhaust steam to heat the boiler feed water, about 1 of fuel being saved for each 11 F. that the boiler feed water is raised in temperatureSubtract the temperature at which water is now going to your boilers from the 212 F., or higher, according to the back pressure to be carried on the heater, and divide by 11, and you will have the saving in per cent. Cochrane Independent Meters are used in connection with open or closed heaters already installed, and also for metering the condensate from condensers serving turbines and engines. The Independent Meter is the most reliable, and about the only, gage that can be had of steam turbine performance and its indications are more conclusive than the indicator card is for the reciprocating engine. By dividing the total flow by the kilowatt hours, you obtain the rate of the turbine per kilowatthour, and if this should increase noticeably over the original performance when the turbine was new, an examination should at once be begun to discover broken or bent blades, passages filled with scale or sludge, excessive leakage through glands, etc. Have you read our book on Finding and Stopping Waste in Modern Boiler Rooms ? HARRISON SAFETY BOILER WORKS 17th and ManufactureTM of the celebrated Cochrane lines,...
